## Our School Mission Statement

Our lifestyle should be environment friendly for the benefit of entire human race as well as all living beings. Develop in our students the sense of going green, repulsion for pollution, promoting cleanliness and efficient resource management as a way of their life.

## Vision of the School

The school aims at fulfilling this mission through :

- inculcating the concepts of organic agriculture, sustainable use of resources, energy from waste, etc.,
- planting and nursing the trees including the medicinal plants, growing vegetables in the school premises,
- implementing “Swatch Bharath Andolon” in the school campus as well as around its vicinity; learning to reduce/eradicate the pollution at its source.

Detailed action plan will be drawn taking the feedback from the stakeholders concerned and the plan will be implemented accordingly.
